PROFILE

Driven UI Developer constantly learning and experimenting with new technologies, languages, and designs. A strong ability to write clean and efficient code using industry best practices.

Passionate about keeping up with the fast changing tech world. Great analytical and problem solving skills. Works well within a team or independently. Excellent time management skills and ability to deliver results under tight deadlines.

EXPERIENCE

Freelance UI Developer / 2019 - present

Expanded my skills with small scale freelance projects.

Utilized WebGL libraries like Three.js and Pixie.js, GSAP and SVG animation, Hugo and Wordpress.

Frontend Developer at Atypic - Craft with purpose / 2018-2019

Created web experiences utilizing HTML5, CSS3, JavaScript and Laravel on a LAMP stack.

Worked within a team of developers on a variety of small and large projects for both local and national clients. Worked closely with the design team to create interactive experiences.

Created and maintained existing projects while also continuing to learn web development and new technologies through self-study.

Contributed in creating a component library and coding standards.

Helped onboarding new developers.

Student at UNCC Coding Program UNCC Charlotte / 2018

Learned fundamentals of web development including JavaScript, MySQL, MongoDB, Express and NodeJS. Worked in collaboration with other developers on complex projects using the agile methodology and git.

Gained strong foundation in CS fundamentals, JavaScript, data structures, and full-stack web technologies.

Continued learning outside of class to supplement my course work.

Freelance Photographer Kiev, Ukraine / 2015-2017
